

2020 Collection

Inspiration is in the details.

INSPIRATION IS IN THE DETAILS.

The way we see it, how you serve is just as important as what you're serving. American Metalcraft products elevate food service in every form—restaurants, grocery stores, hotels and catered events alike.

To see the difference that incredible presentation can make, look to the little things. Whether we're making barware or buffetware, we find opportunities to incorporate unique details, exceptional functionality and on-trend designs. Our goal is always to make your culinary creations the best possible versions of themselves.

Over seventy years ago, we broke into the industry by turning hubcaps into deep-dish pizza pans and custom plate covers. We've since grown our product line into an expansive, eclectic collection of food presentation solutions. In these pages, you'll discover creative tabletop accessories, innovative kitchen supplies and every other tool you need to craft an incredible dining experience.

Whether you're a first-time browser or a longtime customer, we hope you find inspiration in our 2020 collection. And remember, behind every great meal is great presentation.

New products that have been added to our catalog in 2020.

Products that are among our top sellers.

Products that are available in retail packaging.

Products that should be hand-washed only.

Products that are economically shipped knocked down. May require assembly.

Products that have received NSF certification and meet strict standards for public health protection.

Products manufactured in the United States of America.

Products made in a North American Free Trade Association member country.

Products that do not contain Bisphenol-A.

WARNING: Products that may contain chemicals known to the state of California to cause cancer, birth defects or other reproductive harm. For more information, go to www.P65Warnings.ca.gov.

A large, shallow white ceramic bowl sits on a textured, light-colored surface. Behind it, a tall, slender white ceramic vase holds a plant with green leaves and clusters of small, green, unopened flower buds. The background is a plain, light-colored wall.

THIS YEAR, BRING SOMETHING SPECTACULAR TO THE TABLE.

Check out some of our new 2020 product highlights.

THE ISABELLA COLLECTION

Inspired by classic china, these timelessly nostalgic pieces feature beautiful floral designs that could pass as individually made. Whether you use them to serve entrées, hors d'oeuvres or desserts, your customers just might be transported to a Florentine patio when this collection reaches the table. Because the Isabella Collection is crafted from BPA-free, NSF-approved melamine, you can create elegant presentations day after day and night after night without concerns of safety or durability.

THE CRAVE COLLECTION

Our Crave Collection of break-resistant melamine dinnerware is back and bigger than ever. In a wide variety of plates, platters, bowls and mugs, this is not your grandma's melamine. Fast forward, rather, to the 21st century, where technological advancements in designs, materials and manufacturing techniques create artisan-quality melamine that captures the look and feel of china—all at a fraction of the cost and two to three times the service life.

NSF-certified and BPA-free, the Crave Collection is safe in terms of durability, design and ability to be thoroughly sanitized. In two base colors and new additional color options, each artisanally designed piece features organic edges to elevate food service everywhere.

Crave Collection Dinnerware**Plates**

THE JANE COLLECTION

Dinnerware has a new standard. The Jane Collection, our “basic” dinnerware line, is anything but ordinary. Simple and versatile by design, these plates, bowls, cups and platters serve as ideal backdrops for all types of menu items. From low-key lunches to gastronomically-inspired dinners, the possibilities are practically endless.

We chose to craft the Jane Collection from melamine for two reasons: First, it's exceptionally resilient to the bumps, bangs and bounces that find their way into every kitchen. This dinnerware is in it for the long haul. Second, melamine is dishwasher-safe. No matter how you're inspired to fill these blank canvases, cleaning and reusing them is a cinch.

THE DEL MAR COLLECTION BPA FREE

Poolside food service presents a unique set of challenges, and the Del Mar Collection is designed to meet all of them. Crafted from lightweight ABS plastic (a BPA-free, dishwasher-safe material), these stackable serving boxes can be used as both delivery trays and dinnerware. With stylish water-inspired details and modular design, they're the ideal way to present light fare indoors and out. Just remember to wait 30 minutes before going back in.

STANDARD STOCKED PLATE COVERS

Need to please a crowd in a pinch? Twelve of our most popular plate covers are available for rapid turnaround. Made of durable satin-finished stainless steel, these covers feature top-of-the-line heat retention and odor resistance. A well in the top of each cover fits the foot of many different plates. Just measure the diameter of the plate and note the design of the foot to determine the best option. We can also help guide you to the right cover choice with key details about the plate (manufacturer, model and/or size).* All covers are 2" in height and include a finger hole.

For help ordering, call 800-333-9133 or email platecovers@amnow.com.

*We cannot guarantee a solid fit or stack. If a precise fit is required, see Custom Plate Covers on pg. 136-137.

USA

CUSTOM PLATE COVERS

The perfect fit, time after time. American Metalcraft is the market leader in custom plate covers, manufactured to specifically fit round and oval plates, as well as stack securely for transport. And we make it easy - just send the plate sample and we will take care of the rest. Each cover is made to order. Plus, there are many other customization options available. Be sure to check out pg. 138-139 for more details.

Round Custom-Fitted Stainless Steel Plate Covers USA

For any size or make of ceramic, plastic, metal or glass round plates from 4 1/2" (11.4 cm) to 13 5/8" (34.6 cm) diameter. Constructed from stainless steel with beaded rim. Covers are custom-fitted directly to plate for proper nesting and solid stacking.

Minimum order 48 pieces.

Pricing Categories

(33 to 40.6 cm)
Minimum plate width 9 5/8" (24.5 cm)

Please contact us for a quotation on oval and oblong plate covers. The sizing information above is a guide only. Additional smaller sizes may be available. Ceramic plates have a tendency to warp during manufacturing. We cannot guarantee our oval covers will stack solidly if in this condition. Some oval plates with wide bases and oblong plates may not fall into the category indicated by their top outside dimensions.

OV898S

Small Oval Covers (Non-Stacking)

Some smaller custom-fitted stainless steel covers are available for plates down to 7 3/8" (18.7 cm).

Sample plate required. Minimum order 48 pieces.

OV898S Plates up to 8 3/4" (22.2 cm) long

OV999S Plates up to 10 3/8" (26.4 cm) long

For more information or to receive a quote, call 800-333-9133 or email platecovers@amnow.com.

Custom Plate Covers

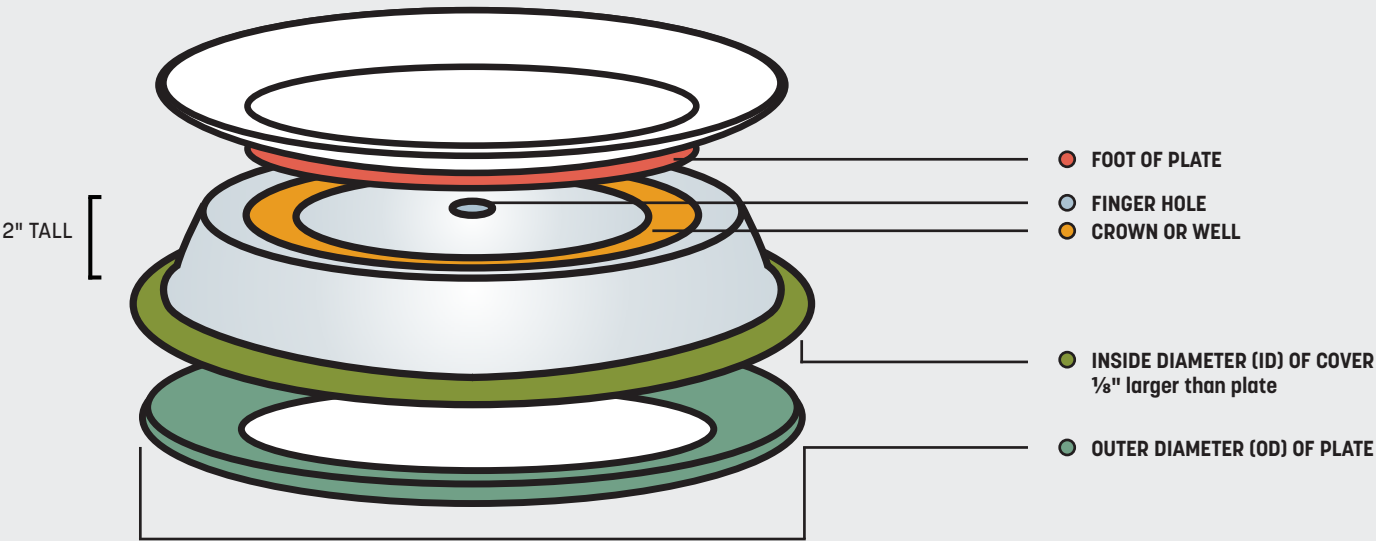

How to Order:

- 1 Send in a sample of the plate you need covered.
- 2 A quotation will be provided for a cover designed to cover and stack on your specific plate.
- 3 Submit a purchase order for a minimum of 48 covers.

Ordering Tips:

- If you have plates from multiple manufacturers or different lots, measure five from each and send the largest and smallest samples.
- Only prices quoted after receipt of sample plate(s) are guaranteed.
- Allow time for manufacturing and shipping. Lead time will be stated upon receipt of PO.
- Before use, hand-wash with degreasing detergent and thoroughly dry. Covers are dishwasher-safe after first wash, but always thoroughly dry before storing. Never store damp.
- Custom-fitted covers are non-returnable.
- Reorders should reference a previous American Metalcraft invoice number.
- Plates with wide bases may not fit into the category their outside diameter indicates. In these cases, larger covers may be required to ensure stacking.

Plate Terms

Special Finishes and Markings for Round and Oval Covers

Standard Finish

This is a bright finish on the sides and a satin finish on the top.

Satin Finish

Available on all round and oval covers. Satin covers make for a sleek and contemporary look.

Bright Mirror

Available on all round and oval covers. Mirror finish covers provide an elegant look.

Letter Stamps

We can stamp 1/2" letters on the top of our covers. These letters can be used to designate different entrées. **Single Letters Only.**

Steam Hole

The steamhole is 1/8". Available only on flat, non-stackable covers without a finger hole.

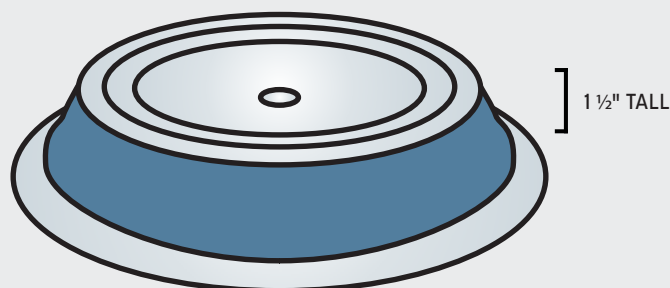

minimum
order
48 pieces

Custom Options

Lower Height Round Banquet Covers

1 ½" (3.8 cm) high over rim of plate, for plates over 9" (22.9 cm) in diameter. Stainless steel. Can be custom-fitted for solid stacking.

LOWER HEIGHT

Old and Used Covers

Reworked Recrowned Covers

If covers fit over the rim of new china, it may be possible to recrown them to stack with the new china. This is possible in most situations but not all. Please send a sample of the new china and three old covers to determine feasibility.

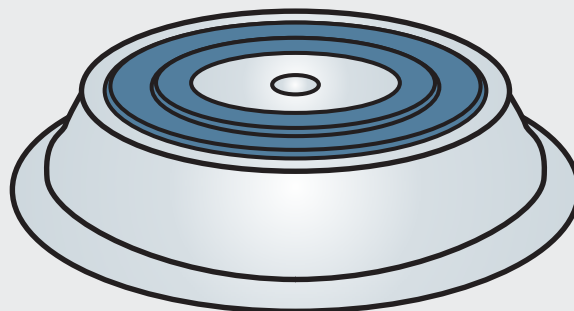

Quoted on a case-by-case basis.

Double Crown Covers

Stacks with Multiple Plates/Bowls

If plates/bowls are of a similar diameter, it may be possible to provide a cover for multiple pieces that stack with a double crown. **Quoted on a case-by-case basis.**

DOUBLE CROWN

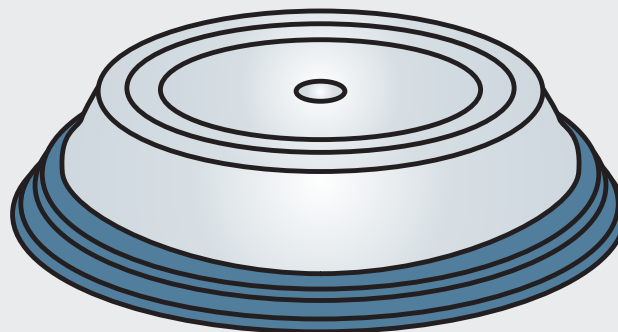

Custom Double-Step Plate Covers

Fits Two Different Rim Sizes

The ingenious design of these Double-Step Covers offers versatility like never before. Two different rims fit two completely different plate sizes so you get double use from one cover!

Quoted on a case-by-case basis.

DOUBLE-STEP

Black Matte Finish Porcelain Casseroles

The look of cast iron meets the durability and weight of porcelain. Smaller casseroles (20-24 oz.) are perfect for shared sides or warm desserts. Larger casseroles (64-104 oz.) work well at buffets.

THE MELAMINE NATURALS COLLECTION

At first glance, these boards look like real stone and wood serving pieces. But upon closer examination, they're actually crafted from durable, dishwasher-safe melamine.

Dual-Tone Marble Melamine Serving Platters

For our next trick, we've created melamine serving boards that are practically indistinguishable from black-and-white marble. A high-end look that's guaranteed to turn heads.

Black/White Round Platters

MWR12 12" Dia. x 1/2" H (30.5 x 1.3 cm)

MWR14 14" Dia. x 1/2" H (35.6 x 1.3 cm)

WOOD CRATES AND CADDIES

In multiple sizes and finishes, our line of wood crates and caddies works hard in any setting. Smaller sizes are a tasteful way to hold condiments, napkins or flatware, while larger crates are sized to fit with polycarbonate and insulated inserts. Best of all, every piece in this line can be flipped over and used as an imaginative riser.

x 1 ⅛" Dia. Neck (13.3 x 13.3 x 1.8 cm)

1.25 mm, 16-gauge Aluminum

699 1 qt. (0.95 L)
7" Dia. Funnel x 6 ⅝" H
x ¾" Dia. Neck (17.8 x 16.8 x 1.9 cm)

913 2 qt. (1.9 L)
9 ⅞" Dia. Funnel x 7 ¾" H
x 1 ⅛" Dia. Neck (23.2 x 19.7 x 1.8 cm)

1.5 mm, 14-gauge Aluminum, Heavy-Duty

1004 4 qt. (3.8 L)
8 ¾" Dia. x 8" H
x 3" Dia. Neck (22.2 x 20.3 x 7.6 cm)

Broiler Brush

With one semi-stiff side and one extra-stiff side, this tempered stainless steel scraper can clean even the most burned-on foods. Handle has metal-threaded tip for extra durability and safety.

1423 31" L x 8 ½" W x 5" H
(78.7 x 21.6 x 12.7 cm)

Wire Brushes with Scraper

With tempered steel bristles and your choice of handle.

- 1347** Wooden Handle
 ¾" (1.9 cm) Bristles
 13 ½" L x 1 ½" H (34.3 x 3.8 cm)
- 1147** Plastic Handle
 1 ¼" (3.2 cm) Bristles
 11 ¾" L x 4 ⅜" W x 1 ¾" H (29.9 x 11.1 x 4.4 cm)

Egg Slicer

Made from die-cast aluminum. Makes oval or round slices.

- ES474** 4 ¼" Dia. x 1 ¼" H (10.8 x 3.2 cm)

Coil-Handle Egg Rings

Heavy chrome plating on half round wire. ⅜" high (0.95 cm) wall.

- ER333** 3 ¼" Dia. (8.3 cm) Ring
 2 ⅞" H (7.3 cm) Overall
- ER444** 4 ⅜" Dia. (11.1 cm) Ring
 3 ½" H (8.9 cm) Overall

Standard Egg Rings

Rings and handles made from stainless steel. 1" high (2.54 cm) wall to prevent leaks.

- ER387** 4" Dia. (10.2 cm) Ring
 2 ¾" H (7 cm) Overall
- ER487** 5" Dia. (12.7 cm) Ring
 2 ¾" H (7 cm) Overall
- ER587** 6" Dia. (15.2 cm) Ring
 2 ¾" H (7 cm) Overall

Pizza Pans & Supplies

A Guide to our Pizza Pans

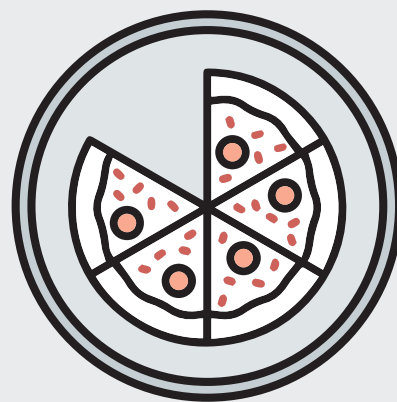

Aluminum Pans

Aluminum is an excellent conductor of heat, providing evenly baked crusts.

Standard-weight pans (denoted with "A" at the beginning of the item number) are made from 18-ga., 0.040", 1 mm aluminum.

Heavy-weight pans (denoted with "HA" at the beginning of the item number) are made from 14-ga., 0.064", 1.5 mm aluminum and are 50% heavier than standard-weight.

- Hand-washing with aluminum-safe detergent is recommended.
- Through repeated use, pans will soften and, if scoured, will thin.

ALUMINUM (A/HA)

Tin Plate Pans

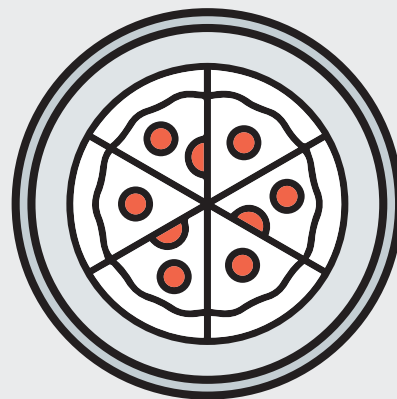

Tin plate is a heavy-weight metal that will darken over time, providing even, efficient cooking.

Tin plate pans (denoted with "T" at the beginning or end of the item number) should be seasoned before use and may need periodic re-seasoning.

- Will darken with use and rust if refrigerated, soaked in water or left unseasoned in damp environments.
- Hand-wash and wipe-dry immediately.
- Call for additional tin plate pan options.

How to Season

To season, wash in warm, soapy water and quickly dry. Brush oil on inside and outside surfaces of the pan and bake to a golden or dark brown. When seasoning, bake at regular times and temperatures. Some pans may need a second or third coating before being fully seasoned.

TIN PLATE (T)

Hard Coat Anodized Pans

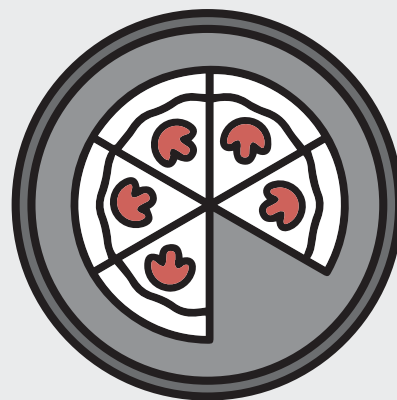

Heavy-weight and efficient, hard coat aluminum provides quick and efficient results.

Hard coat pans (denoted with "HC" at the beginning or end of the item number) are anodized with a synergistic electro-chemical process that converts the surface of aluminum into a dark aluminum oxide.

- Made from heavy-weight aluminum unless perforated, in which case they're made from standard-weight aluminum.
- Through repeated use, pans will soften and, if scoured, will thin.
- Season before use and hand-wash with aluminum-safe detergent.

How to Season

Wash and dry the pan thoroughly. Wipe oil on the inside and outside surfaces of the pan and allow to soak in for 30 minutes. Then bake at regular cooking times and temperatures. Do not overbake and do not wash off excess oil. The oil residue and any additional oil added before baking allows the pan to develop non-stick properties. Remember when cleaning hard anodized aluminum, this is considered an amphoteric coating and will be attacked by solutions of a high alkaline or acidic nature. Do not expose these pans to dishwashers or caustic cleaning solutions. Hand-wash with detergents made specifically for aluminum.

HARD COAT ANODIZED (HC)

Please note:

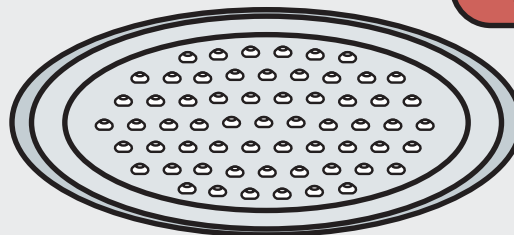

We carry thousands of different pizza trays in varying styles, depths, materials and other options, resulting in tens of thousands of possible combinations. Because each pan is made to order, it's possible that yours is the first of its kind. Special-order pans cannot be cancelled or returned, so please review and re-confirm your order. If you have any questions, give us a call and, if necessary, request a sample.

Nibs (N)

Nibs raise the pizza off of the baking surface, allowing moisture to escape providing a fresher, crispier pizza.

- Nibs are approximately $\frac{5}{8}$ " (15.9 mm) in diameter and raise the pizza about $\frac{1}{8}$ " (3.2 mm) above the surface of the pan.
- Any round or square pizza trays or pans measuring 2" (5.1 cm) deep or less, or between 8" (20.3 cm) and 20" (50.8 cm), can be made with nibs.
- Pans with nibs cannot be perforated.
- To order, add "N" to the beginning of the regular item number and note in the body of the order that the pans should be made with nibs.
- Refer to price list or amnow.com for pricing information.

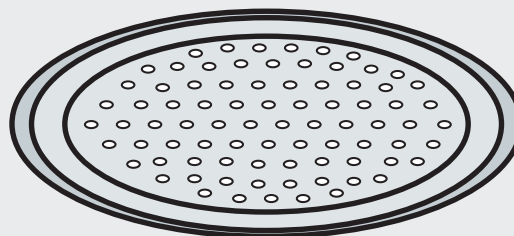

minimum
order
24 pieces

Perf (P)

Perforated pans allow the bottom of the pizza to cook faster and can provide a crispier crust. They can also keep cooked pizzas fresher by allowing moisture to escape.

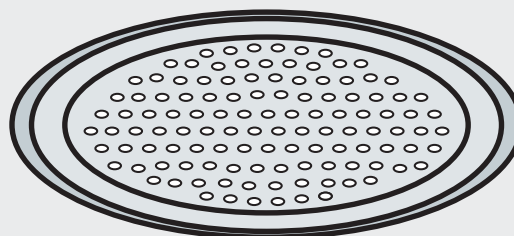

- Holes are $\frac{3}{8}$ " (9.5 mm) in diameter.
- Round or square pizza trays or pans less than 21" (53.3 cm) in diameter can be perforated.
- Perf pans cannot be made with nibs.
- To order, add "P" to the beginning or end of the regular item number and note in the body of the order that the pans should be perforated.
- Refer to price list or amnow.com for pricing information.

SuperPerf (SP)

SuperPerf pans have twice as many holes as Perf pans, allowing the bottom of the pizza to cook faster and providing a crispier crust. They can also keep cooked pizzas fresher by allowing moisture to escape.

- Holes are $\frac{3}{8}$ " (9.5 mm) in diameter.
- Round pans less than 21" (53.3 cm) in diameter can be SuperPerf.
- SuperPerf pans cannot be made with nibs.
- To order, add "SP" to the end of the regular item number and note in the body of the order that the pans should be SuperPerf.
- Refer to price list or amnow.com for pricing information.

Mega Screens - Aluminum

Mega Screens are the smart choice for those looking for a more durable screen option. Holes and open rims make cleaning a breeze and improve food safety. Available in aluminum or hard coat anodized aluminum, Mega Screens can last 5 to 10 times longer than standard pizza screens. Hard Coat Mega Screens are the most durable, cost-effective screens for conveyor oven use. Holes are 3/32" (0.2 cm) in diameter.

Perf Disks - Aluminum

Manufactured from 18-ga. 1 mm aluminum, these perforated disks produce a more evenly baked crust by allowing for more air circulation. Holes measure $\frac{3}{8}$ " (9.5 mm) in diameter.

Caring for Wood Peels

Want to keep your wood peel looking fresh? Always wipe it clean with a damp cloth. Never put in dishwasher, soak in water, place under a heat lamp or leave on a hot surface. If your peel warps, leave it with the warp facing up overnight and it should flatten out.

Pizza Peel Wood Oil

Block odors, food particles and moisture by seasoning your wood peels. Unlike some oils, this won't spoil. Note: Seasoning will not keep peels from wearing out.

CARE AND USE

Melamine Dinnerware, Bowls and Platters

This nearly indestructible line of melamine is long-lasting when cared for properly. It is not recommended for microwave use and should be washed only in a high-temperature dishwasher. Not for use with a heat lamp or in the oven. Regarding serving suggestions, we do not recommend any citric, acidic or strong-colored food products that would have direct contact with melamine. These products can cause staining over time. PET liners that can protect melamine from staining are available for some items.

Wrought Iron Griddles

Prior to using your American Metalcraft Griddle for the first time, hand-wash with a mild detergent and warm water. Then dry thoroughly with a soft cloth. Do not put wrought iron griddles in dishwashers or expose them to abrasive sponges, caustic cleaners or acidic detergents.

Wood Peels and Serving Boards

Wood pizza peels and serving boards should never be soaked in water, even for a few minutes. To clean, simply wipe down with a damp cloth and allow to air-dry. They can be seasoned or sealed with oil. To seal, wipe any food-safe oil such as mineral oil on the surface of the peel. We recommend our Wood Oil sold on pg. 392. If sealed properly, the peel is less likely to pick up unwanted odors, food particles and moisture. If a peel warps, leave overnight with the warp facing up and it should flatten out. Avoid leaving peels on hot surfaces. This increases the chance of warping.

Carbon and Black Steel Pans

Seasoning is recommended. To season, wipe interior of pan with flavorless cooking oil and heat empty pan. When surface becomes hot, remove from heat and allow pan to cool. Repeat this process twice. Color of pan will change to a darker finish. This indicates that pan has gained a natural non-stick protection.

To clean, hand-wash in hot water with mild detergent. Dry with paper towel or place in warm oven for a few minutes. Store in dry place. Do not put in dishwasher or expose to abrasive sponges or acidic detergents. Not suitable for microwave.

CAUTION: Flat iron handle is not heat-resistant

Galvanized Pails and Tubs

To clean, hand-wash in warm water with mild detergent and dry quickly. Do not put in dishwasher or expose to abrasive sponges, bristles, caustic cleaners or acidic detergents. Do not refrigerate, soak in water or use with acidic foods.

Hammered Copper

As beautiful as these lines are, they require special attention when cleaning. Please hand-wash only with a soft cloth. Do not scour with steel wool or abrasive cleaners. Copper polish may be required to maintain the beauty of the surface.

Securit Signs

To erase Securit Original Chalk Marker messages on Table Boards, Mini Chalkboards, Wall Boards, Sandwich Boards and other Securit signage, wipe with a soapy cloth followed by a clean cloth, or use the Securit Chalkboard Sponge as an easy cleaning alternative.

Cast Iron

Before First Use

Hand-wash and dry immediately. Rub with a thin, light coat of vegetable oil to restore sheen.

After First Use

Wash with hot water (and mild soap if necessary). Dry immediately and rub with a light coat of vegetable oil. To remove excess residue, use boiling water and a plastic scrub bun or brush. Dishwashing, acidic detergents and scouring pads/bristles are not recommended. Re-season the pan when necessary to prevent food from sticking.

Daily Care Notes

Never put cold water in a hot cast iron pan; this can cause the pan to crack or warp. Store in a cool and dry place. Gas flames should not extend up the sides of cast iron cookware. When deep frying, fill cast iron cookware only to ⅓ of capacity.

PIZZA PANS AND TRAYS

Aluminum Pans and Trays

Aluminum is a soft metal that is attacked by detergents with a high alkaline or acidic nature. Use detergents made specifically for aluminum. Through repeated use, aluminum will soften and, if scoured, will thin. Hand-wash only.

Tin Plate Pans

Tin plate should be seasoned before use and may need periodic re-seasoning. Tin plate will darken with use. Tin plate will also rust if refrigerated, soaked in water or left unseasoned in damp environments. Never soak in water. Wipe dry immediately after hand-washing.

To Season Tin Plate Pans

Wash in warm, soapy water and quickly dry. Brush oil on inside and outside surfaces of the pan and bake to a golden or dark brown. When seasoning, bake at regular times and temperatures. Some pans may need a second or third coating before being fully seasoned.

Hard Coat Pans

These pans are made from heavy-weight aluminum. Hard coat anodizing is a synergistic electro-chemical process that converts the surface of aluminum into aluminum oxide. The aluminum oxide is a dark color. The finish is hard and will not flake off. However, the aluminum underneath is soft and, through repeated use, the pan will soften. If scoured, the pan will thin. Hard coat pans are not non-stick and must be seasoned. Hand-wash only.

To Season Hard Coat Pans

Wash and dry pans thoroughly. Wipe oil on the inside and outside surfaces of the pan and allow it to soak in for 30 minutes. Then, bake at regular cooking times and temperatures. Do not overbake and do not wash off excess oil. Just wipe clean. The oil residue and any additional oil added before baking makes the pan stick-resistant. Do not put these pans in dishwashers or expose them to caustic cleaning solutions. Hand-wash with detergents made specifically for aluminum.

Pizza Stones

This "all-natural" stone is freezer-, microwave- and oven-safe. It is not dishwasher-safe and requires hand-washing. It requires no seasoning or conditioning. Simply rinse in warm water before first use and allow the stone to dry thoroughly. Most recipes suggest preheating stone 15 to 20 minutes for even cooking and to reduce baking time. To prevent cracking, avoid moving directly between extreme temperatures, such as from the oven to cold water. Do not place stone over an open flame or in a broiler. Do not cut directly on stone. Before cleaning, allow to cool completely. Then remove baked-on foods and rinse in warm water. To avoid soapy aftertaste, do not use soap or detergent. Do not soak the stone or clean in a dishwasher. The pizza stone will darken gradually and retain some staining with use. These are a part of the stone's natural seasoning and will not harm it or affect the taste of the food. Handle the stone with care to prevent chipping or breaking.
