

nemco®  
**PRO-HYGIENE SOLUTIONS**

PRODUCT GUIDE | SPRING 2021

# adapt

**It's likely the challenge that has you reviewing this guide.  
We can relate.**

## **It's how we came to be.**

After almost 50 years of custom and production-inventory equipment manufacturing for the food-service industry, like so many, our world suddenly stopped for an unbearable moment in 2020.

So, we made a pivot.

## **It's how we've always thrived.**

Responding to market needs in a way so steadfastly consistent with the Nemco name, we launched a completely new line of products for anyone, in foodservice or otherwise, trying to keep his or her business thriving in this new era.

## **It's how we'll relentlessly serve you.**

If you don't find what you need in this guide, challenge us.

Nemco Pro-Hygiene Solutions is new.  
But our driving force is the same.

**nemco**

# Easy Shield™ Clear Partitions

Add a valuable health-and-safety component to employee-, customer- or other personal-interaction environments with Easy Shield clear partitions, available in a wide range of models and sizes—or customized to your unique application.

- Provide a sanitary-positive barrier, while preserving the clarity needed to maintain friendly customer-service and other face-to-face engagements
- Made of lightweight, but highly durable, materials for lasting performance
- Simple designs make assembly and installation extremely easy
- All feature rounded corners for improved safety

## THE DIAMOND LINE

Far more durable and safer than “plexiglas” partitions made of inferior acrylic material

[FIND OUT MORE](#)

## THE UTILITY LINE

Portable, practical—and also tougher than acrylic

[FIND OUT MORE](#)

## MORE SHIELD SOLUTIONS

Includes face shields and other special-application products

[FIND OUT MORE](#)

The Leading Brand  
Made of **Super-Tough**

# POLYCARBONATE

When health and safety really matter, choose the brand that takes its job far more seriously than run-of-the-mill “Plexiglas” barriers made of acrylic.

Easy Shield is superior to acrylic in every way imaginable.

## Impact Strength

*It's not even close.*

Worse, when acrylic breaks, it tends to leave dangerously sharp edges exposed.

## IMPACT RESISTANCE\*

## Flex Strength

Bend it. Twist it. Take it to the woodshed. Polycarbonate simply will not crack under pressure like acrylic.

[WATCH VIDEO](#)

## Fire Resistance

*Again, not even close.*

In fact, Easy Shield is building fire-code compliant.<sup>1</sup> Watch the video to see the dramatic difference.

[WATCH VIDEO](#)

## Lasting Clarity

Polycarbonate is UV stabilized and more scratch resistant than acrylic. In fact, even after a decade of exposure, its light transmissivity degrades less than 10%.

\* Instrumented impact per ASTM D 3763.  
Sample thickness 0.125" nominal.

<sup>1</sup> Meets ASTM E84 and ULC S102-2—Class A  
and ASTM D635—CC1 classifications.

# freestanding COUNTERTOP MODELS

Easy Shield™ freestanding models are a great solution for workplace and customer-service areas in need of a stable barrier that is effective against potential infection spread but, also, extremely easy to take down or move at a moment's notice.

**ALL** Polycarbonate  
**TOUGH**

## CHOOSE FROM A RANGE OF OPTIONAL FEATURES:

*Tab-in-Slot Legs for optimum stability*

*Slot-in-Slot Legs for a clean look (see p.6)*

*Specify a pass-through opening for applications where transactions are common*

*Shields can be clear, semi-transparent or a solid white, black or color*

*Shield legs can be white, black, semi-transparent or, for added durability, stainless steel*

# freestanding TABLETOP DIVIDERS

Quickly and easily set up a clear tabletop barrier that promotes a defense against infection spread, while still providing for friendly face-to-face interactions. These units are especially designed for high-top and other tables with smaller surface areas that don't allow for recommended social distancing. However, Nemco can easily create a similar version for any larger tables you might have in mind.

**ALL** Polycarbonate  
**TOUGH**

*Standard 4-way tabletop divider*

**Slotted core for  
versatile partition  
placement.**

*Tabletop divider with slotted core*

# freestanding FLOOR MODELS

Nemco's framed, floor-standing Easy Shields are a great pro-hygiene defense divider for workplace assembly lines or other shared workspaces, customer-service lines, commonly used areas, such as therapy rooms, or virtually any situation where individuals are on their feet and in close proximity to one another.

**ALL Polycarbonate  
TOUGH**

### CHOOSE FROM MODELS:

- Featuring a full-length or open-bottom design
- With or without casters, depending on your Easy Shield mobility needs

Open-bottom shield

**Available with casters  
for easy mobility.**

Full-length shield

Choose from a wide range of sizes, listed here or specified to your needs.

Model #	Description	Width	Depth	Height	List Price
69914	Easy Shield, Framed, Full-Length	42"	24"	84"	\$876.00
	Easy Shield, Framed, Open Bottom	90"	24"	79½"	Call for Price
69903	Caster Kit	-	-	-	\$99.00

# HANGING MODELS

When counter- or floor-surface space is limited, a particular foot-traffic area is tight, or some other issue makes it difficult to set a freestanding partition, a hanging Easy Shield can serve as a great solution. Order from an array of sizes or specify your own.

**AL** Polycarbonate  
**TOUGH**

*Rounded corners for added safety.*

Model #	Description	Width	Depth	Height	List Price
<b>IN STOCK</b> 69798	Easy Shield, Hanging	36"	1/8"	24"	\$151.00
<b>IN STOCK</b> 69793-NH	Easy Shield, Hanging, No Hardware	36"	1/8"	24"	\$139.00
<b>IN STOCK</b> 69886-48-24-P	Easy Shield, Hanging	48"	1/8"	24"	\$239.00
<b>IN STOCK</b> 69886-48-36-P	Easy Shield, Hanging	48"	1/8"	36"	\$222.00
69916	Hardware Kit, Chain & S-Hook	-	-	-	\$21.00

Models are available with hardware included that's designed to hang from a standard ceiling-tile grid. Or specify 'without hardware,' if hanging from another type of ceiling or overhead structure.

*Ask about laser cutting for custom branding or graphics!*

# MOUNTED MODELS

Establish a sanitary-positive barrier in nearly any commercial or workspace situation you can imagine with a mounted Easy Shield clear partition, made to standard or custom-specified dimensions. Durable, yet lightweight, these models can be affixed to a wall, furniture or any other solid, stable base to create a physical guard against transmission.

**ALL Polycarbonate TOUGH**

*Specify a pass-through opening for applications where transactions are common.*

*Ask about laser cutting for custom branding or graphics!*

*School Desk Shields*

*'Cashier' Easy Shield*

*Receptionist Kiosk*

*Sloped Easy Shield*

*Wall-Mounted Easy Shield*

Nemco has already created solutions for everything from classroom and office desks to bank counters, restaurant seating, receptionist windows and more.

Choose from a list of standard mounted Shields, or call with a unique application.

Keep Calm and  
Carry an Easy  
Shield

Users can  
personally customize  
with stickers or  
dry-erase markers!

When you need an effective, but more practical and economical, pro-hygiene barrier, Nemco's Utility-Line Easy Shields are a great solution.

Each is designed for personal use and mobility, making them perfect for individuals regularly transitioning between classrooms or meeting areas.

Because of the more temporary nature of the Utility-Line, these Shields might also be a smart choice in the face of uncertainty about how long CDC-guideline policies will last.

### Portable & Lightweight

Each Utility Line item is easy to carry and set up—even for a child.

Collapsible models take storage and mobility convenience to another level.

### Virtually Unbreakable

Features PETG material  
*(polyethylene terephthalate glycol, if you're scoring at home).*

Not Diamond-Line polycarbonate tough.  
But, nonetheless, 7x stronger than acrylic alternatives.  
*PLUS, it's recyclable and biodegradable!*

### Uniquely Workable

Who knows when an idea will strike? Write it down on your Utility-Line Easy Shield!

*They accept dry-erase markers, and you can even order a frost coating for a true whiteboard effect.*

# freestanding DESK & TABLETOP MODELS

The most economical option in the Utility Line, this Easy Shield features a clear plastic window set inside a 5/32" thick corrugated cardboard frame. Easy to unfold and prop up into place, then, fold back down and store away again.

- Clear visibility through the front and partially on the sides
- Front view is 20" wide x 20" high, with an additional 3½" peripheral view
- User can write notes on the cardboard or customize with artwork
- Ships flat, in a pack of 20, keeping per-item cost extremely low

## 3 Easy Steps!

1. Ships flat

2. Easily unfolds to prop in place

3. Folds back flat again to store away

Model #	Description	Width	Depth	Height	List Price
69989-20	Corrugated Shield (20-pack)	20"	15"	27"	\$219.00

# freestanding DESK & TABLETOP MODELS

Made of a rigid and durable PETG material, **L-designs** can stand on their own without a frame, thus providing a two-sided partition that has a fully unobstructed view on both sides.

## L-Shield

When aligned in multiples, such as in a classroom setting, the repeating side-by-side formation effectively creates a three-sided barrier around each user, much like the alternative U-design Easy Shields, but at a lower cost due to material savings.

- Clear visibility through both sides
- Can be frosted for a whiteboard effect
- Made of 0.060-inch-thick PETG
- Ships pre-formed, in a 10-pack

Model 69994-10 (Shown with black rubber feet, sold separately)

Model 70004 (Shown with plastic track feet, sold separately)

## L-Bend Shield

All the features of the L-Shield above, but in a model that ships as a flat PETG sheet, dramatically saving per-unit cost. The sheet is scored, making it easy to fold into the L shape for standability, then, unfold and flatten again to be stored or carried away.

- Made of 0.040-inch-thick PETG

## Add More Stability to Your L-Shields

If moving your Easy Shield often, these six 1" long slip-on feet add a tacky rubber grip.

If your Easy Shield is likely to stay put for a while, choose these four 3" long T-channel track feet with double-sided tape.

Model #	Description	Width	Depth	Height	List Price
69994-10	L-Shield (10-pack)—Foot kits sold separately	18"	14"	24"	\$536.00
70004	L-Bend Shield—Foot kits sold separately	18"	14"	24"	\$45.00
69992-6	Black Rubber Accessory Foot Kits (6)	—	—	—	\$15.00
69990-4	Plastic Track w/ DS Tape Accessory Foot Kits (4)	—	—	—	\$24.00

# freestanding DESK & TABLETOP MODELS

**U-Shields** add an extra side to the L-design Easy Shields, providing more barrier protection, more stability when propped in place and more surface area for dry-erase writing.

### U-Shield

- Clear visibility through both sides
- Can be frosted for a more opaque look
- Made of 0.060-inch-thick PETG
- Ships pre-formed, in a 10-pack

Model 70006 (Shown with black rubber feet, sold separately)

### U-Bend Shield

All the features of the U-Shield above, but in a model that ships as a flat PETG sheet, dramatically saving per-unit cost. The sheet is scored, making it easy to fold into the U shape, then, unfold and flatten again to be stored or carried away.

- Made of 0.040-inch-thick PETG

Model 69996-10 (Shown with plastic track feet, sold separately)

### Add More Stability to Your U-Shields

If moving your Easy Shield often, these six 1" long slip-on feet add a tacky rubber grip.

If your Easy Shield is likely to stay put for a while, choose these four 3" long T-channel track feet with double-sided tape.

Model #	Description	Width	Depth	Height	List Price
69996-10	U-Shield (10-pack)—Foot kits sold separately	20"	14"	24"	\$628.00
70006	U-Bend Shield—Foot kits sold separately	20"	14"	24"	\$53.00
69992-6	Black Rubber Accessory Foot Kits (6)	-	-	-	\$15.00
69990-4	Plastic Track w/ DS Tape Accessory Foot Kits (4)	-	-	-	\$24.00

# HANGING MODELS

Utility Line hanging models offer a quick, economical solution when surface area is too limited for a freestanding model, and especially when a partition is a very short-term need. Made of durable PETG material that's far stronger than brittle acrylic. Standard size is a 30-inch wide x 24-inch tall dimension, but custom sizing is easy.

- Made of durable 0.04-inch-thick PETG
- Extremely lightweight; can be supported by any standard ceiling tile
- Easy-to-clean for lasting clarity
- Ships flat, in a 2-pack

**Hardware kit that includes four S-hooks and 12 feet of chain is sold separately.**

Model #	Description	Width	Depth	Height	List Price
69886-32-24-E	Hanging Shield (2-Pack)	30"	.040"	24"	\$41.00
69916	Hardware Kit, Chain & S-Hook	-	-	-	\$21.00

# Face Shields

Model 69925-10

In workplace or customer-service situations where social distancing is difficult to practice, the Easy Shield face shield can add a valuable forward barrier of protection over face masks,\* while still maintaining excellent visibility. It features a foam forehead and a one-size-fits-all elastic headband that wears comfortably without stress or fatigue on the user, even for extended periods of time.

- APET (*amorphous polyethylene terephthalate*) material has high flexibility and clarity, and serves as an effective barrier against droplets
- Designed to widen at the base for optimum coverage around the nose and mouth
- Easy to clean (with proper disinfectant products)
- Available in adult and child sizes
- Comes in packs of 10 or 200

\* Not intended for medical use.

# Intubation Box

Medical professionals can reduce the risk of potential infection spread when tending to a supine patient with this facial enclosure that comfortably fits over most shoulder widths. Once in place, two six-inch diameter armholes allow unrestricted access to the patient for endotracheal, endoscopic and other similar procedures.

- An essential personal protective equipment (PPE) device in medical settings
- Lightweight and easy to move and set in place
- Optimum visibility on all sides
- Far more durable than acrylic alternatives that easily crack and break
- Easy to clean with soap and warm water after use

Model #	Description	Width	Depth	Height	List Price
69925-10	Easy Shield, Face Shield (10-pack)	12"	1½"	8¾"	\$43.00
69925-200	Easy Shield, Face Shield (200-pack)	12"	1½"	8¾"	\$801.00
69925-10-S	Easy Shield, Child-Sized Face Shield (10-pack)	10¼"	1½"	8"	\$40.00
69925-200-S	Easy Shield, Child-Sized Face Shield (200-pack)	10¼"	1½"	8"	\$747.00

# Clean Getaway™ and Other Hands-Free Door Openers

Among the most common causes of disease transmission is hand-to-surface contact with objects designed and intended for shared use—most notably, door handles. Dramatically reduce this risk in your business operation with Nemco's range of hands-free solutions.

- Simple designs make them extremely user friendly
- Very few parts for easy installation and fail-safe function
- Stainless steel materials for lasting durability
- Customization options available

# FOREARM & FOOT MODELS

Minimize the chance of spreading pathogens by way of potentially contaminated door handles with these ingeniously simple fixtures available in two different models—one for foot use at the base of the door and one for forearm use at mid-door height. They're absolutely ideal for restroom and breakroom doors, but also have a place in any doorway with moderate to heavy traffic.

- Angle designed for safety—effective for pulling, but allows for a quick-slip release to prevent injury
- Stainless-steel construction for lasting strength and appearance, even in high-traffic applications
- Versatile – can be placed almost anywhere
- Easy to install (hardware included)

*Both Clean Getaway models provide a user-friendly means of pulling doors open without having to touch handles or other door surfaces.*

*Every Clean Getaway includes an easy-to-apply sticker with simple directions for use.*

Model #	Description	Width	Depth	Height	List Price
<b>69811</b>	<b>Forearm Door Opener</b>	1¾"	3"	2½"	\$25.00

69813-10	Foot Door Opener (10 retail pack with point of sale)	3"	2¾"	2½"	\$199.00

# FREEZER & REFRIGERATOR COOLER DOOR MODELS

**The Clean Getaway can be developed for all sorts of unconventional door handles!** Take these unique models, for example, designed to convert the use of retail and other cooler doors into a hygienic hands-free convenience. Just a little forearm tug is all it takes to access the cooler without the risk of hand-to-handle contact.

- Great for convenience stores, refrigerated grocery aisles and any commercial kitchen with a busy staff
- Stainless-steel construction for lasting strength and appearance
- Easy to install with just a few parts (hardware included)
- Versatile—can be placed at any height

Hardware options ensure a secure fit to the unique contours of your cooler-door handle. You can even choose a model designed for the more intricate full-length extruded handles!

Every Clean Getaway includes an easy-to-apply sticker with simple directions for use.

Add a protective plastic sleeve available in a range of colors

## Other Hands-Free Door Openers

## Kick-Plates &amp; Push-Plates

Doors unobstructed by a latch allow employees or customers to push through with their forearm or foot and, thus, avoid hand-to-handle contact that can spread disease. But, over time, this exacts unsightly long-term wear and tear on the door—unless you have a Nemco Pro-Hygiene Solutions' kick- or push-plate that withstands the punishment and still looks great.

- Durable 18-gauge stainless steel
- Can be sized to fit any walk-through door
- Easy to install and maintain for like-new appearance

# Pro-Hygiene MultiTool

## No-Touch Door Opener

This incredibly versatile tool, only slightly larger than a car key, enables anyone to navigate a normal day without ever touching a publicly shared surface. The user can hook and open nearly any kind of door or faucet handle, or use the pointer to activate all kinds of buttons or touchpads, from elevators and gas pumps to ATM and self-checkout machines.

- Made of stainless steel and virtually unbreakable
- Comfortably fits most anyone's hand or keychain
- Ships in packs of 50

Model 69900-50

Model #	Description	Width	Depth	Height	List Price
69878	Kick Plate Door Opener	34"	–	12"	\$58.00

# NemcoPro™ Sanitizing Systems

According to the Centers for Disease Control & Prevention (CDC), up to 80% of communicable diseases are transferred by touch, making hand hygiene one of—if not the—best common defense against the spread of illness. Nemco Pro-Hygiene Solutions offers an ever-expanding line of cleaning and sanitizing products that serve all sorts of applications, as well as a collaborative design-manufacturing team that can partner with you in the development of a new product idea.

- Smart designs to optimize personal cleanliness—even in remote settings
- High-strength materials for commercial and other busy environments
- Always easy to set up and use
- Customization options available

## HYGENIE™ HANDS-FREE AND OTHER SANITIZER DISPENSERS

# manual FOREARM MODELS

Promote the higher-level hygiene advantages of hands-free sanitizer dispensing in a more economical, manual alternative to sensor-activated units. Like any HyGenie solution, these forearm-activated models offer drip-free portion control to conserve costly waste. Plus, they're lightweight and portable, yet simple and durable, to provide sanitizer where it's needed most in any commercial or industrial setting.

- Hands-free dispensing—pump lever designed for forearm use
- Consistent portion-control dispensing—preset to 0.0703 oz (2 ml)
- No-drip valve prevents waste
- Large, open reservoir makes for quick refilling
- Easy to disassemble and clean
- Dishwasher safe components
- Works with both gel and water-based sanitizers

*Set your HyGenie in the middle of the action with this freestanding holder, available in black, white or stainless steel.*

*Choose from black or white, with or without custom graphics*

*Save counter space with this wall-mount bracket, available in black, white or stainless steel—Sold separately*

**Custom graphics available!**

# portable PORTION PUMP

This easy-to-use, handheld pump combines higher-volume capacity and portion control with the portability of a common hand-sanitizer bottle. Carry it with you or use it from a stationary hanging position. It's great for applications with unique space restrictions or staff needs.

- Adjustable portion control with settings for: 1/8, 1/6, 1/4, 1/3 and 1/2 oz per stroke
- One squeeze gives one portion—quick and easy
- Patented design ensures no-drip, no-mess operation
- Sealed system creates a vacuum draw that maximizes evacuation of the sanitizer, preventing product waste
- Made of durable BPA-free material
- Very few components—easy to disassemble and clean
- All components are dishwasher safe
- Fits standard FIFO BOTTLES™ of 12, 16, 20, 24 and 32 fl ounces (bottles not included)\*
- Works with both gel and water-based sanitizers

*Space-saving vertical storage stands keep the pumps organized and accessible, while forcing sanitizer toward the nozzle. Order a single, double or triple unit.*

# TWIN-SINK MODELS

**Promote an important practice against infection spread—just about anywhere!**

The Stop 'n Scrub is a completely self-contained, side-by-side, 2-sink system, with each side featuring a faucet and drain, a dispenser for paper towels, and a dispenser for soap or sanitizer.

They're the perfect solution for busy outdoor venues, drive-thru lanes, construction zones and other remote sites with no convenient access to a restroom sink.

Stop 'n Scrubs are also ideal for restaurants with outdoor seating areas, particularly when indoor patronage is closed or limited. They can even find a place in an indoor scenario, when an anticipated traffic spike is temporary and not worthy of an investment in a permanent bathroom installation.

- Drains flow into a single, built-in wastewater tank—the entire unit is easy to empty, wipe down and disinfect
- Made of durable, high-density polyethylene (HDPE)—light enough to easily move and position, but tough enough to withstand commercial and industrial environments
- UV-proof to maintain appearance, even after marathon use in the sun
- Models available in a 12-gallon or 30-gallon size
- Custom graphics available

**“NO PLUMBING?  
NO PROBLEM”**

Model 69960, front view

**Easy-to-use foot pedal at the base activates water flow.**

**Stainless-steel mount widens the base to optimize stability.**

*Improve hygiene even further by adding an Easy Shield™ clear partition*

# HYGIENE-SUPPLY STATIONS

**Making workplace protocols easy to follow is one of the most effective ways to ensure they are followed.**

That’s the simple truth behind Nemco’s choice of hygiene-supply stations. They’re all designed to keep staple health-and-safety supply items organized and accessible in storage-dispenser units with little to no footprint—so, they reliably assist in maintaining best practices, without getting in the way of normal operational traffic.

- High-strength stainless steel for commercial/industrial use
- Easy to install or set in place
- No-hassle dispensing and refill

### Wall-Mounted, Single-Compartment Glove Dispenser

For applications with a moderate demand and no need to provide glove-size variations.

- Easy to load/reload—Just slide full and empty glove boxes through the open top
- Holds box securely in place for trouble-free, orderly dispensing

### Wall-Mounted, Three-Compartment Glove Dispenser

For applications with a heavier usage demand.

- Three compartments accommodate a variation of glove sizes
- Easy to load/reload—Glove boxes slide in/out through the open sides
- Holds boxes securely in place for trouble-free, orderly dispensing

### Wall-Mounted, Glove, Mask & Hair-Net Dispenser

Organizes and dispenses a full array of health-safety supplies in one storage location.

- Easy to load/reload—Supply boxes slide in/out of their respective compartments
- Holds boxes securely in place for trouble-free, orderly dispensing

Model #	Description	Width	Depth	Height	List Price
69910	Wall-Mount, Single-Compartment Glove Dispenser	9 1/8"	3 1/8"	5"	\$50.00
69910-3	Wall-Mount, Three-Compartment Glove Dispenser	10 1/4"	3 5/8"	18 1/4"	\$122.00
69915	Wall-Mount, Glove, Mask & Hair-Net Dispenser	18 1/8"	5 1/8"	25 1/8"	\$243.00

# HYGIENE-SUPPLY STATIONS

### Freestanding Disinfectant-Wipe Dispenser

Ideal for fitness centers, hair salons, repair shops or any other application that involves the shared use or steady exchange of equipment, furniture, tools, etc. among employees or customers.

- Lightweight and portable—with an extremely narrow, vertical profile to fit almost anywhere wipes are needed
- Stands tall—at a convenient height for easy accessibility—but includes a wide, flat base for stability

### Freestanding Sanitizer and Gloves Combo Dispenser\*

Designed for hotels, airports and any other active public areas where, at a moment's notice, employees or customers might need to sanitize their hands or some object in their possession.

- One stand holds both a hand-sanitizer dispenser and up to two boxes of gloves
- Lightweight and portable—with an extremely narrow, vertical profile to fit almost anywhere
- Stands tall—at a convenient height for easy accessibility—but includes a wide, flat base for stability

### Dispenser for Single-Use Sanitary Paper

In applications where employees or customers need a simple, hygiene-safe way to pick up or hold something without hand contact, these dispensers offer a convenient, on-the-spot solution.

- Easy to load/reload
- Holds box of paper securely in place for trouble-free, orderly dispensing

# Pro-Hygiene Concepts for Foodservice

Nemco Pro-Hygiene Solutions draws on decades of experience in food equipment design-manufacturing to offer innovative health-and-safety products specially geared for the foodservice industry.

Further, we're also prepared to partner with operators and brand executives to develop new product ideas, particularly with the knowledge that off-premises dining trends are poised to accelerate, and patrons' heightened hygiene awareness is destined to last well after the pandemic is in the rearview mirror.

- Solutions for all kinds of kitchen and customer-facing applications
- Always made of durable, commercial-grade materials—a Nemco trademark
- All easy to use for employees and self-serve consumers

Call to discuss developing a custom idea | **800.782.6761**

Optimize the health and safety of employees and customers during their point-of-contact moments in carryout situations.

# Curbside Order Station

**Combines a protective barrier with user-friendly features.**

- Easily cradles and wraps around tablets or other order-placement devices in a range of sizes
- Includes a shoulder strap that adjusts for comfort, or can be completely removed
- Body made entirely of attractive, durable, easy to clean stainless steel
- Also includes handy compartments for a stylus and other ordering tools

# Curbside Delivery Caddy

**Pass off food orders to drive-up patrons without hand-to-hand contact.**

- The server carries the caddy, open side facing the customer, using two underneath handles that, combined with a lipped tray and multiple cup holders, make for a stable and secure pass-off—The customer doesn't have to touch anything but his/her order
- Designed with a clear partition on the server's side to optimize hygiene safety
- Made entirely of durable, easy-to-clean polycarbonate—the toughest material of its kind
